

Harlem Children Society Mission

www.harlemchildrensociety.org

- Harlem Children Society (HCS) selects the most diligent and promising students from communities ridden by abject poverty and adverse situations to participate in its innovative programs. Students engage in one-on-one mentoring and hands-on research in Science, Technology, Engineering & Mathematics (STEM) and Allied Sciences. Each student researches topics relevant to their communities' issues and problems with an eye toward providing assistance and solutions, and thereby creating a global community of local leaders of the next generation. The HCS Model is a Universal Paradigm.
- Develop innovative curricula to be used in under- resourced school districts in low-income communities.
- Build a corps of researchers and other Science and medical practitioners to serve as positive role models and mentors.
- Provide training and insight for mentors and learners so that long term changes will be effected in schools.
- Promote other activities related to scientific education for the enhancement of the community at large.

Harlem Children Society (HCS) is a decade old organization based in U.S.A. that provides an opportunity for Extremely high level of scientific research at leading scientific and medical institutions for high school and Graduate students from **low-income areas across the U.S.A., and a Global program in several countries in all continents.** HCS has developed and demonstrated a sound and successful model for engaging high school students from **Underserved communities in scientific research and study that increases their interest in science, improves study skills and self-confidence and prepares them for entry into Competitive Institutions of higher education.** The program identifies under-resourced & under-served communities, targets at-risk children and youth in those communities, and provides them an opportunity to explore the world and their future through science, thereby helping to revitalize the community as a whole. Serving as a catalyst for change – recognizing inventors and invention, promoting creativity, and advancing the spirit of Innovation and entrepreneurship, HCS is committed to fostering the same spirit, developing Creative products, programs, and partnerships that emphasize the importance of invention in society.

ASS has developed partnerships and association with HCS. The Goal of the ASS is to Promote and Advance Science & Technology and creates Universal Awareness of Tolerance and Peace. It seeks to promote Awareness in the sciences and technology especially in the under-reserved and under-resourced sections and communities of the world. It seeks to promote Tolerance of all Faiths and will strive with Universal Peace and Human-hood. ASS seeks to Promotion of education, of constant progress, and a youth that never ages is a major focus, seeking to bridge the realizations from the Past, Present, and Future. **The organization’s success is directly attributable to the cooperative efforts of a network of individuals like you who are a part of its innovative model.** The organizational Centerpiece features a unique collaboration between schools, teachers, government Organizations, industry professionals, university faculty, community leaders, and Contributing foundations, and is the quintessential formula for encouraging achievement in the most diligent, deserving students from impoverished backgrounds.

Please consider providing the organization a strong and encouraging voice at this crucial point.
